ROADMAPS

STEPS TO CREATE ROADMAP FOR IMPROVING OPERATIONS

1 GOALS
Define the organization's future goals and objectives.

2 CURRENT STATE
Define the current state of operations with Value Stream Map.

3 FUTURE STATE
Define preferred future state of operations, where it supports organizational goals and objectives.

4 CHALLENGES
Identify and list the challenges with moving operations from current to future state.

5 SCORE
Score each challenge on complexity ($$ cost) and value (benefit) to solve.

6 CHART
Put each challenge (project) on the Value Complexity matrix.

7 PRIORITIZE
Select projects based on the *least complex and highest value*.

8 ROADMAP
List the projects in priority order to create a Roadmap of projects.

High

Business Value

Low   Complexity / Effort   High
